## **HISTORY**

After the arrival of Islamic rule in India, that had managed to rule throughout a long period of the region's history, much of Western Punjab had become a centre of Islamic culture in the Indian subcontinent. An interlude of Sikh rule under the Maharaja Ranjit Singh and his Sikh Empire had seen a brief resurfacing of traditional culture, until the British had annexed the region into the British Raj.

NSS UNIT-1 NO: 90214307

## CULTURE

This name originates from the Persian language 'panj', (five), and 'ab', (water). Panjab or Punjab: land of the five rivers. Indus river (the largest river in this five river system), and the five other rivers to the south eventually join Indus or merge into it later in the downstream of the Punjab valley. All the rivers start and flow out of the Himalayas.
